

NEVER BE CAUGHT OFF GUARD AGAIN.

Smart cold room monitoring with Instant SMS alerts

Your cold or freezer room works around the clock. Shouldn't you know the moment something goes wrong? Our Smart Temperature Controller continuously monitors your refrigeration system and sends instant SMS alerts when a problem is detected—giving you time to act before valuable stock is lost.

KEY BENEFITS OF OUR SMART CONTROLLER:

24/7 Temperature monitoring.
Instant SMS alerts.

Better stock protection.

Minimise downtime and
costly product losses.

Improve food safety
and compliance.

Greater peace of mind—
even when you're away from
your business!
